Kingsway Learning Center and Services

December 2018 / January 2019

Looking Back

Moving Ahead

Change can be a scary thing. The unfamiliar can be ominous. We tend to naturally gravitate toward the comfort of what we know. But a house becomes a home because of the people within it, the anticipation of great things to come and, eventually, the nostalgia for what it took to get there.

Kingsway Learning Center and Services is staring the future straight in the eye as the Elementary and Secondary Programs move into a new, state-of-the-art building in Voorhees, NJ. It's big--really big. It's on one level, its walls are painted in bright colors and parking is plentiful. There is an Acme nearby, shops, movie theater and restaurants.

The building at 1000 Voorhees Drive is a beauty. It was specifically retrofitted for the needs of our students and it is perfect. But that's just the building. Lots of buildings are great. This one isn't special--but it will be.

The moment our students step off the bus on that first day, this beautiful, big, sprawling building will truly be Kingsway Learning Center. The same excellent teachers, therapists, para-professionals and office staff will help the students make our Voorhees house a home.

Our Haddonfield and Moorestown campuses

certainly served us well. Our history there is rich and inspiring. The recent celebration of our 50th anniversary marked great achievements. But success requires growth. When the time came, the Secondary Program took shape and the Moorestown Campus was born. When the students first arrived at that newly refurbished building, one astute young man said, "I thought we were leaving Kingsway, but this *is* Kingsway!"

Now it's time to grow again. Change may not be so scary after all. •

We will begin 2019 in our new home
