

## **Updated Kingsway Learning Center COVID-19 Policies and Procedures** Effective July 2023

Kingsway Learning Center is updating several policies and procedures that were put in place during the COVID-19 public health emergency. While the spread of COVID-19 and other respiratory viruses is still a concern, public health officials have indicated that reverting to common sense infection control measures is advisable at the current time. If and when conditions change, these policies and procedures may be updated.

### **Infection Prevention**

Kingsway will continue taking precautions to keep staff and students healthy and safe. This will include encouraging handwashing, regular deep cleaning and disinfection of equipment and surfaces, and encouraging staff and families to stay home when sick.

### **Exclusion from School**

Moving forward, Kingsway will continue to monitor and follow guidance from the NJ Department of Health on health issues that affect our students and staff, which includes COVID-19, flu, and other serious infectious diseases.

Kingsway will no longer require COVID-19 testing if and when students have COVID-19 symptoms. In the event that a student tests positive for COVID-19, families should report a student's positive test result to the School Nurse for further direction. Additional information regarding exclusion from school for serious medical concerns is available [here](#).
